

Bonfire

TVORCHI

Don't play with our minds, don't play with our hearts, yeah
You're selling your soul just to feel whole, yeah

Fire on the road, money, make it rain
Secrets never told, oh, all we feel is pain
Chaos then unfold, we all make mistakes
Listen to that voice, time to make a change

Young is the new love, give us that new love, oh
We're sitting and waiting by the bonfire, by the bonfire
Young is the new love, give us that new love, oh
We're sitting and waiting by the bonfire, by the bonfire

The longer you look, the lesser you know
Don't live in a dream, 'cause you need control
'Cause the longer you look, the lesser you know
There's nothing to show
(Fire)

Fire on the road, money, make it rain
Secrets never told, oh, all we feel is pain
Chaos then unfolds, we all make mistakes
Listen to that voice, time to make a change

Young is the new love, give us that new love, oh
We're sitting and waiting by the bonfire, by the bonfire
Young is the new love, give us that new love, oh
We're sitting and waiting by the bonfire, by the bonfire

No one can hold you down
No one can stop you now

(Oh)
What are we sitting for?
(Oh)
What are we waiting for?
(Oh)
What are we sitting for?
(Oh, oh)
What are we waiting for?
