

## Broken Heart

TVORCHI

Wish I told you how I felt about you  
Now you're gone and I can't live without you  
Never thought that I would be the one to doubt us  
Now I'm left with pieces of a broken...

(Heart) We thought we was forever  
(Heart) Live like it's now or never  
(Heart) Ever since we found, we found this treasure  
(Heart) It's been nothing but a curse and a blessing

Maybe you're one of a kind  
Nothing like you I'll find  
Feel like I'm losing my mind  
Wishing that we could rewind  
Thought we controlled this fire  
Now it's burning wild  
So I gotta let you go  
'Cause you're never coming back

Wish I kissed you when I had the chance  
We both knew this love would never last  
Never thought I would be the one to end us  
But now I'm left with pieces of a broken...

(Heart) We thought we was forever  
(Heart) Live like it's now or never  
(Heart) Ever since we found, we found this treasure  
(Heart) It's been nothing but a curse and a blessing

Maybe you're one of a kind  
Nothing like you I'll find  
Feel like I'm losing my mind  
Wishing that we could rewind  
Thought we controlled this fire  
Now it's burning wild  
So I gotta let you go  
'Cause you're never coming back
