

# Control

TVORCHI

You know all I need is someone like you  
Tell me you believe that I'm on to you

Don't be so cold  
I need your body here  
When we're taking it slow

I keep losing control  
Control  
Control  
I keep losing control (I'll be there)  
Control (yes you can)  
Control (I'll be there)  
Control (ahhhh)

Control me  
You know me  
You now where to keep your hands  
I'm on it  
Believe me  
I wanna see till the end

Oooh now we can't go back  
Now we've come too far

Eeeeeey

Loving the way your body move to the music (music, music)  
Turn it up cause I'm ready to get loose yeah (loose yeah, loose  
yeah)  
Night after night you know I just keep losing

Control  
Control  
I keep losing control (I'll be there)  
Control (yes you can)  
Control (I'll be there)  
Control (ahhhh)

I keep losing control
