

You so natural sweet, honey
Promise you'd do anything for me
All the adrenaline just makes my heart beat
Don't turn me down, don't turn back now

I know you're shy
But I just don't know why
Take off that mask and let's get wild
I know you're shy
But I just don't know why
Take off that mask and let's get wild
Get wild

'Cause you electrify me
Put me in a trance with your body
Sparks fly high, fireworks
'Cause I love the way your body work, oh-oh
'Cause you electrify me
Put me in a trance with your body
Sparks fly high, fireworks
'Cause I love the way your body work, oh-oh

Oh, I need this love
Cannot get it wrong
Yeah, you know (Know)
You know (Know)
We don't need to rush
We got all the time
Take it slow (Slow)
Take it slow (Slow)

I know you're shy
But I just don't know why
Take off that mask and let's get wild
I know you're shy
But I just don't know why
Take off that mask and let's get wild
Get wild

'Cause you electrify me
Put me in a trance with your body
Sparks fly high, fireworks
'Cause I love the way your body work, oh-oh
'Cause you electrify me
Put me in a trance with your body
Sparks fly high, fireworks
'Cause I love the way your body works

Oh, I need this love
Cannot get it wrong
Yeah, you know (Know)
You know (Know)
We don't need to rush
We got all the time
Take it slow
Hey!
