

# Fire

TVORCHI

Feel the heat when you look into my eyes  
Light me up while we burn into the night  
Keep the fire burning  
'Cause my soul keeps yearning  
Keep the fire burning  
I don't need a warning

When it's hot, hot, hot  
I know we can't burn  
When it's not, not, not  
Take me to the sun

When it's hot  
I know we can't burn  
When it's not  
Take me to the sun

Fire  
Fire, fire, fire  
Fire  
Fire, fire, fire  
Fire (fire is burning)  
Fire, fire, fire (my soul keeps yearning, oh-oh)  
Fire (fires burning)  
Fire, fire, fire (fire is burning, oh)

Liar  
You said, "It wouldn't hurt  
If I went too close"  
But, I'm crying  
In the silence  
Ooh, sirens  
In the distance 'cause you're dangerous  
And we're running  
From the darkness

Ooh, who  
Can save me from you? (You, you, you)  
Maybe, I (I, I, I, I)  
Should open up my eyes (open up, should open up)

When it's hot  
I know we can't burn  
When it's not  
Take me to the sun

When it's hot  
But, I know we can't burn  
When it's not  
Take me to the sun

(Fire is burning, my soul keeps yearning, oh-oh)  
(Fire is burning, eh, fire is burning, oh-oh)  
(Fire is burning, my soul keeps yearning, oh-oh) fire, fire, fire, fire  
(Fire is burning, ah, fire is burning, oh-oh) fire, fire, fire, fire  
(Fire is burning, my soul keeps yearning, oh-oh) fire, fire, fire, fire  
(Fire is burning, fire is burning, oh-oh) fire, fire, fire, fire

(Fire is burning, my soul keeps yearning, oh-oh) fire, fire, fire, fire  
(Fire is burning, fire is burning) fire, fire, fire, fire

Who can save me from you? (Save me from you)  
Maybe, I (maybe I should)  
Should open up my eyes
