

# I Can't Stop

TVORCHI

So many lies  
But I can't tell you why no  
Try to look into my eyes  
You can find what you're looking for

Cause you know I can't stop thinking bout you  
Nothing feels right  
Feels right without you  
I'm sure you know I didn't wanna hurt you  
But one thing you need to know is

I can't stop loving you  
Ooh baby baby  
Ooh baby baby  
Ooh  
I can't stop loving you  
Ooh baby baby  
Ooh baby baby  
Ooh

If I give you all I got  
I want you to give me all you got, yeah  
Baby, don't shut me out  
Send me the location  
Nothing feels like what we got  
That's just why I need it  
Thought you knew you were all I wanted  
Cause I don't want nobody else you know

What I feel with you  
I can't feel with nobody else  
Nobody else  
I want to be with you  
I can't be with somebody else  
Somebody else

Cause you know I can't stop thinking bout you  
Nothing feels right  
Feels right without you  
I'm sure you know I didn't wanna hurt you  
But one thing you need to know is

I can't stop loving you  
Ooh baby baby  
Ooh baby baby  
Ooh  
I can't stop loving you  
Ooh baby baby  
Ooh baby baby  
Ooh
