

## Is It Over

TVORCHI

Oh I gave you all I had  
Said you couldn't do the same  
I get crazy when I'm mad  
Cause there's no way to numb the pain

I sacrificed it all for you  
I'm losing my mind  
Is all because of you

I'm crazy baby  
Please don't make me visualise my thoughts  
It could get dangerous  
Don't wanna say this  
But I can't shake the feeling  
That you're in love with someone else now

So is it over  
Is it over  
Is it over now  
Is it over now  
Cause were getting older  
Getting older  
Getting older  
How is it over now

I sacrificed it all for you  
I'm losing my mind  
Is all because of you

I'm crazy baby  
Please don't make me visualise my thoughts  
It could get dangerous  
Don't wanna say this  
But I can't shake the feeling  
That you're in love with someone else now
