

Loose

TVORCHI

We've been sitting in the shadows too long
We just wanna be ourselves, but they say we're wrong
They put us behind the scenes for too long
But we're gonna get up

And we're gonna get loose
Break the chains and keep on running
We're gonna get loose
We start a fire 'cause it's burning, oh
We're gonna get loose
Can't hold the tables, they keep turning
We're gonna get loose
So break the chain and keep on running, whoa

Day and night, I don't wanna fight, is it right?
Put me on the line or keep trying
Start a fire, take me higher
I keep crying, I'll keep trying
Can't run from it, can't stop coming
Peak the loving, kiss me softly
They can see it coming
This is what we want, this is what we're gonna do

We've been sitting in the shadows too long
We just wanna be ourselves, but they say we're wrong
They put us behind the scenes for too long
But we're gonna get up

And we're gonna get loose
Break the chains and keep on running
We're gonna get loose
We start a fire 'cause it's burning, oh
We're gonna get loose
Can't hold the tables, they keep turning, ooh-oh
We're gonna get loose
(Oh, yeah)
So break the chain and keep on running, whoa

And we're gonna get loose
Break the chains and keep on running
We're gonna get loose
We start a fire 'cause it's burning, oh
We're gonna get loose
Can't hold the tables, they keep turning, yeah, they keep turning
We're gonna get loose
So break the chain and keep on running, whoa
