

# Psycho

TVORCHI

Psycho, psycho, had to sneak away 'cause she might blow  
Night clothes, night clothes, sleeping all day in my night clothes

Like whoa, like whoa, sleeping next to me, I'm like, oh  
Psycho, psycho, had to sneak away 'cause she might know

Oh, I don't fall in love with no stranger  
Oh, I just wanna stay outta danger

But I just keep falling back to you  
Oh, back to you, oh, back  
Heart keeps running back to you  
Oh, back to you, oh, back  
Mouth keeps talking back to you  
Oh, back to you, oh, back  
Memories crawling back to you  
Oh, back to you, oh, back

Psycho, psycho, only one thing on your mind, no?  
Don't wanna leave, but you might go  
Had to sneak away 'cause she might know  
Psycho, psycho, got you feeling like you're walking tightrope  
Don't wanna know what you might know  
Had to sneak away 'cause she might know

Oh, I don't fall in love with no stranger  
Oh, I just wanna stay outta danger

But I just keep falling back to you  
Oh, back to you, oh, back  
Heart keeps running back to you  
Oh, back to you, oh, back  
Mouth keeps talking back to you  
Oh, back to you, oh, back  
Memories crawling back to you  
Oh, back to you, oh, back

Oh, I don't fall in love with no stranger  
Oh, I just wanna stay outta danger
