

Shine

TVORCHI

What do you see
When you look up in the sky
See, you light up my life
Bright enough for me

How does it feel
Does it make you feel alive
Wanna come light up your life
Bright enough to see

You don't need to go
Cause maybe we don't need the moon tonight
Feel the afterglow
Cause baby, we don't need the stars to shine

So shine
Cover up the sky
You light up the night
So bright
Shine, shine

So shine
Cover up the sky
You light up the night
So bright
Shine, shine

Baby, I'm here
So we can shine brighter
Brighter than the sun
And if anyone comes closer
No, they'll get burnt

Oh, I warned you
So you'd be stronger
Stronger than you are
You don't need to move too fast
Ooh, you could fall
Tonight...

You don't need to go
Cause maybe we don't need the moon tonight
Feel the afterglow
Cause baby we don't need the stars to shine

So shine
Cover up the sky
You light up the night
So bright
Shine, shine

So shine
Cover up the sky
You light up the night
So bright
Shine, shine
