

Supernatural

TVORCHI

You know it, I know
You got dizzy, dizzy right now (hmm)
I love that you assume that
I'm not insane
You know it's not the same
You're right
I'll be living it out tonight, yeah

This is my thing
Lather it up, fuck up less of my name
Loosen it up to that thing
Loosen it up to that thing, yeah

You've got me feeling so amazing
You've been dancing with me all night
I can feel the heat
Something just feels so right
Don't be scared to fight for what you like
We only got time just for tonight, yeah
You know... Supernatural disguise

You know it, I know
You're not busy, busy right now (hmm)
I love that you assume that
I know the game
It's not, it's not the same
You're right
I'll be living it out tonight, yeah

This is my thing
Lather it up, fuck up less of my name
Loosen it up to that thing
Loosen it up to that thing, yeah

You've got me feeling so amazing
You've been dancing with me all night
I can feel the heat
Something just feels so right
Don't be scared to fight for what you like
We only got time just for tonight, yeah
You know... Supernatural disguise
