Oh baby, your back is so pretty
Look back at me, look back at me
Oh, your hair is as black as night
Your curvy body is shining with sunlight

You're beautiful, I've dreamed of you, I fell for you even before I knew you
r name
This street became a picture and the focus is on you

Love, maybe it's love
My predictions have never been wrong
If it's not, it can't be like this
Feels like it's already been a long time
This could be love, gotta be love
My footsteps are approaching you
It's already decided for us
After a few seconds, we'll become lovers

The wind carries over your wind
This fragrant feeling
This breath, this feeling of things getting clearer
Your smooth side profile reflects in the window
How can you be just as I imagined?
I'm falling for you again

I fell for you even before we exchanged our first words
This street became a movie scene and the focus is on you

Love, maybe it's love
My predictions have never been wrong
If it's not, it can't be like this
Feels like it's already been a long time
This could be love, gotta be love
My footsteps are approaching you
It's already decided for us
After a few seconds, we'll become lovers

Now we have finally looked at each other
It's just as I thought
As if it's waited for us, smile oh pretty baby
At the right time, on the right street
This is like destiny, you and I

Love, baby it's love, love has come like this
I can't have anyone else but you
Things like this can't happen anymore
This could be love, gotta be love
Your footsteps approach me
It's already decided for us
After a few seconds, your sugar lips will touch mine

Love, maybe it's love
My predictions have never been wrong
If it's not, it can't be like this
Feels like it's already been a long time
This could be love, gotta be love
We're getting closer
We already know
We've become one on this street
