

# Fated

TVXQ!

Someone said, a man has way of life  
It's strong but fragile  
Everything's fated everything's fated

Doko kara ka ukabu silent sound  
Muri ni hodo itemo round and round  
Kono mune de atsuku myaku-utsu red blood  
Itsuka sekai no owari ni  
Omoi dasu fuukei ga aru toshitara...

Beyond the time te ni shita yume nano ka?  
And, close my eyes  
Tebanashita nukumori no ato ni nokoru namida ka?

It's fated fated it's fated

Someone said, a man has way of life  
It's strong but fragile  
Everything's fated everything's fated

A silent sound rising up from somewhere  
Forced to go round and round  
Red blood pulsing hard in this chest  
If someday there is  
A view at the end of the world...

Is it a dream I held beyond the time?  
And, close my eyes  
Are these tears remnants of the warmth I've let go of?

Everything's fated fated your way of life  
It's fated fated show it to me  
It's fated fated fated  
Everything's fated fated the full bloom  
It's fated fated will fall  
It's fated fated it's fated

Oh hey guys! whatcha gonna do?  
Oh hey guys! whatcha gonna do?

Everything's fated fated your way of life  
It's fated fated show it to me  
It's fated fated fated  
Everything's fated fated the full bloom  
It's fated fated will fall  
It's fated fated it's fated

Beyond the sadness is a brilliance  
Only those who have passed through know  
Parting and meeting again even in the fight for tomorrow  
Everything's alright. it's the aesthetics of this way of life

Oh hey guys! whatcha gonna do?  
Oh hey guys! whatcha gonna do?  
Oh hey guys! whatcha gonna do?

Your mother's soul you're breathing  
Your father's mind you've inherited  
The spirit you live with until that day  
You're hurt by love  
But don't want to live throwing away love

In my mind I can hear that melody  
Close my eyes  
And sing a love song for those I should protect

Everything's fated fated your way of life  
It's fated fated show it to me  
It's fated fated fated  
Everything's fated fated the full bloom  
It's fated fated will fall  
It's fated fated it's fated

Beyond the sadness is a light  
Only those who have passed through know  
Parting and meeting again even in the fight for tomorrow  
Everything's alright. it's the aesthetics of this way of life
