In this world we are in the same time  
I was able to meet you  
Baby I'm with you  
When I think of you  
Baby I'm with you  
When I think of you

Today is a day that I will never forget  
The frame of my heart has been left behind

The two of us will certainly meet again sometime  
I want to see my favorite smile  
Baby I'm with you  
When I think of you  
Baby I'm with you  
When I think of you

Memories are fragments of yesterday  
That become tomorrow's strength and light

When you start to walk with me on this new road  
Dreams will shine like daybreak

When we can't meet, look up at the sky  
To your place where feelings can be reached  
In the future, our wish will come true  
Oh yes, because you are there

If you look up at the sky, I can meet you  
Even if we're separated you'll be in my heart  
In the future, our wish will come true  
Oh yes, because you are there
