It was always interesting
And everything was good at the country
Even the bright fireflies at the riverside
The young boy running around not knowing he'll get tired
Was the exact image of me as a kid

Little kid listen to my words
Always keep
That bright smiling image
When you grow up
And if the moonlight makes you sad
You'll miss those times

Even my strong self
Is flattered as I watch the kid
Quietly as i make eye contact
My heart beats
But afraid he will know my thoughts
I just joke around

Little kid listen to my words
Don't cry, fill this place
With beautiful love
When you grow up
You might miss
This innocent image

Be happy with coins, playing is good
Even if you get in trouble for dirtying your clothes
Always have fun, be happy with friends
I wanna love you...just like old days

Little kid, listen to my words
Always keep
That bright smiling image
When you grow up
In the sad moonlight

When you become an adult
You'll like the next door dog
That used to scare you
When love finds you
It will greet you warmly
Little kid, you lift me and make my laugh, oh...

These precious days that wont come again
