Baby, I swear
Forever

It was strange to see you smile
As you looked at me
I lifted my head when you
Called out my name with your lips
I barely managed to see you and you were dazzling

A long time has passed
So I'm used to being in front of you
But it's still so precious to me
For not saying thank you and
For being shy, didn't you hate me?

At some point, I got used to your love
As if I've always been this way
I thought this was just natural
Like a fool
I just have a sorry heart

A long time has passed
So I'm used to being in front of you
But it's still so precious to me
For not saying thank you and
For being shy, didn't you hate me?

Even if darkness comes (love you)
Baby I love you, thank you (thank you)
I will hug you (love you)
Baby I love you, thank you (thank you)
Even if darkness comes (love you)
Baby I love you, thank you (thank you)
I will hug you (love you)
Baby I love you, thank you (thank you)

I'm falling for your love
I'm falling woo
I'll protect you

Though a long time has passed
I couldn't say the words "I love you"
Because I felt awkward but
Of us crying and laughing together
Let's cherish these memories that cannot be erased

(Love you)
Even if darkness comes (love you)
Baby I love you, thank you (thank you)
I will hug you (love you)
Baby I love you, thank you (thank you)
Even if darkness comes (love you)
Baby I love you, thank you (thank you)

Baby, I swear
Forever
