Survive

Shadows dominate the surroundings of the never-setting sun
The jungle law whispers
Holding its breath as it draws near, yeah
Whatever the means, whatever may happen
Trying to get closer
This midsummer's dream is a game, a chain of love
Come one step closer

Oh dive into the next world
Welcome to the jungle
The burning sky looks about to collapse
So we can't sleep tonight
With our bodies covered in sweat I'll take you tonight
It's gonna be alright
Welcome to the jungle

Jungle
Stand and fight, do it
Jungle

Wonders of nature
And ecstasy mean adventure
What's up in this sweltering night?
The trap laid by a wonderful dna

Don't stop on the road that goes beyond the pathless ways
There a hidden existence awaits, a new paradise no one knows about
Jungle

Jungle
A-ha alright

We meet in the midst of a scorching night, "hallo, red zone"
Eye to eye, relishing in the jungle law
As we cross and scheme, yeah
It's good to enjoy even that pressure
Trying to get closer
Being alive is already a game
Come one step closer

Oh dive into the next world (we can dive)
Welcome to the jungle (jungle yeah)
The burning sky looks about to collapse (sky)
So we can't sleep tonight oh
With our bodies covered in sweat I'll take you tonight
It's gonna be alright
Welcome to the jungle

Jungle
Stand and fight, do it
Jungle

The motions of a snake: your bold project, do it cautiously
The stance of a lion: there are zero rules, it's survival of the fittest
The amazing ability to advance forward without being
Afraid: this invisible wall, break it

Don't stop on the road that goes beyond the pathless ways
There a hidden existence awaits, a new paradise no one knows about
