You're in a rotten mood, lady
You don't even give me a good morning kiss
Should I clear this game...? let's go
Somehow, when I call you
"My little princess", it backfires
But you're cute, even when you're angry... uh yeah

I was in a cafe with another girl
Did you hear that rumor?

You're misunderstanding, it's business ooh maybe maybe

No kiss, why not, lady?
No touch, come here, baby
No sweet love is never gone, lady
No, no, anyone but you is not good

Before you head out, lady
Let's make up somehow
Because I've done nothing wrong oh please
What should I do?
There are many enemies playing the game of love
They're only phantoms of jealousy... oh no

I want to hold you just five minutes
You'd understand that over some excuse
The continuation of these shared feelings is tonight, tonight

No fake, stay by my side, lady
No guilt, always like this, baby
No doubt, like always, lady
No, no, anyone but you is not good

Lady, my love no no no
Let's kiss and make up
Oh baby, kiss me darling
I wanna hold you baby, yeah
Wow... oh no no no
Let's kiss and make up
Baby, kiss me darling
Oh lady, only my love

No kiss, why not, lady?
No touch, come here, baby
No sweet love is never gone, lady
No, no, anyone but you is not good

No fake, stay by my side, lady
No guilt, always like this, baby
No doubt, like always, lady
No, no, anyone but you is not good

Lady, only love baby
Oh baby, kiss me darling
I wanna hold you baby, yeah
Oh no no... baby kiss me darling
