Getting back back back the hot season
Jumping□girl girl girl it's about to start
Ready go go go this is our
Summer, summer, summer

Summer love, summer dream, summer holiday
This year too, the summer smiles
And it kept smiling
From the day I met you
We have traversed many waves
And chased dreams
Because you, the sea, and the sky

Are waiting for us

Our feelings that synchronize
And our toasting is time for the beginning
How about today? how about with me?
I'm ok to welcome you all day today
Your body is so daring
And this party goes all night long
These are the best

Getting back back back the hot season
Jumping□girl girl girl it's about to start
Ready go go go this is our
Summer, summer, summer
Getting back back back the bright light
Jumping□girl girl girl shines over me
Ready go go go the summer with you
Is the best in the world

In the place where the south wind blows
I gaze ahead and walk forward
Believing in the footsteps
You left behind
I hear the ocean sounds, one more kiss
Come to my side, one more chance
Give me some delusion, crazy, sexy, juicy, baby
Because I feel
The gift like sun that turns around
And the temperature seems like it will rise

Getting back back back the hot season
Jumping□girl girl girl it's about to start
Ready go go go this is our
Summer, summer, summer
Getting back back back the bright light
Jumping□girl girl girl shines over me
Ready go go go the summer with you
Is the best in the world

I love ocean, sunshine of love
You're my ocean, I'm king of summer

The rising cheers and music that spreads well
They're always being innovated
Cutting through the whole country
Like a hot wind across the continent
Because the moments we laugh together
And the eternity that gets us excited
Are the best

Getting back back back the hot season
Jumping□girl girl girl it's about to start
Ready go go go this is our
Summer, summer, summer
Getting back back back the bright light
Jumping□girl girl girl shines over me
Ready go go go the summer with you
