Baby baby, baby, baby, it's only for you

I put on my best outfit
Put on my new cologne
On this relaxing day
I'll head out in a good mood
I'll be there not too long

In the running car
The music is playing
And my heart is dancing along
Where are you?
Take your time getting ready
I'll go to you just in time
(Baby baby I'll go)

Baby baby, in each loving day
Fluttering feelings fill up, only for you
Everything we do together, every place we go together
Baby baby, baby, baby, it's only for you

Erase anyone who isn't me from your heart
Only believe in me like destiny
Look at me, fallen so deeply in love
Feels like I finally found my answer

Everyone is jealous of me, next to you (everybody everybody)
Can't compare with you (nobody nobody)
This feeling that fills me
Even the trembling of my heart, all for you (that's right)

The spreading smiles
The passing scents
Make my head feel dizzy
It's more serious today
Why are you so pretty?
I can't breathe because of you
(Baby baby I'll go)

Baby baby, in each loving day
Fluttering feelings fill up, only for you
Everything we do together, every place we go together
Baby baby, baby, baby, it's only for you

I'll be better, I'm in love
From a to z
So that all of me
Will be pleasing to your eyes and heart

Uh sweetly, an ordinary love has started
Let's go now (baby baby I'll go)

Baby baby, in each loving day
Fluttering feelings fill up, only for you
Everything we do together, every place we go together
Baby baby, baby, baby, it's only for you

Baby baby, in each loving day
Fluttering feelings fill up, only for you
Everything we do together, every place we go together
Baby baby, baby, baby, it's only for you
