Wait wait wait
My thick sound
That is deeply rooted and most like me
I am alive and well
I am solidly preparing
This is my track (track track)
The enemy tempts me every day
Wants me to crumble down
But you can't stop me
My fans are like a sunflower looking at the sun

Without shaking, hey
More than the lost body

I still trust my beating heart
I laugh at the rain and wind like it's a joke
Stop right there- attention
You're a fake winner who imitates me
The elegance of my footsteps are different
Don't laugh
You still can't beat me

The world is going to lie
I don't care if you deceive me
My shouts will not be overcome

I'm going to fly now
I have endured through the moments
The teachings of painful times

Without shaking

You're like a blade of a knife
Why? (so sharp)
You endlessly stab
But my song is a shield that cannot be pierced
It's a tiring, endless argument
Our game
Only my fans
Have simply believed in me

Without shaking, hey
More than the lost body

I still trust my beating heart
I laugh at the rain and wind like it's a joke
Stop right there- attention
You're a fake winner who imitates me
The elegance of my footsteps are different
Don't laugh
You still can't beat me

The world is going to lie
I don't care if you deceive me
My shouts will not be overcome
I'm going to fly now
I have endured through the moments
The teachings of painful times

Without shaking
Without shaking
Without shaking

You can't stop me, u
Can't hold me down

You won't want to believe
My continuous extinguishes
The darker it gets
My secret becomes stronger
You're probably very curious
I will answer with my music

The world is going to lie
I don't care if you deceive me
My shouts will not be overcome
I'm going to fly now
I have endured through the moments
The teachings of painful times
