 000 0000 000 this way

Now I see this way  
 This looks like purple line, gotta introduce myself

If I cannot touch the world  
 If it cannot be shown even to me  
 How will I understand that I was wrong?  
 I really wanna touch myself  
 I cannot even hope for a miracle  
 If that's sincerity  
 I must act again right now

Purple line, let me set up my world (my world)  
 Where no one has walked this way  
 Now, in my own different method  
 No one can follow me  
 The thing I want to see is my progression  
 Even if all my rhythm is divided until the end (you)  
 After I go against it, the winning moment's purple line

As the challenge repeats again  
 Experience can be gained everyday  
 Up till now, I've surpassed myself no longer  
 I can't oppose but time will give me chances again  
 To the ever exhausted to me  
 Say this isn't the end

Purple line, let me set up my world (my world)  
 Where no one has walked this way  
 Now, in my own different method  
 No one can follow me  
 The thing I want to see is my progression  
 Even if my rhythm is divided until the end (you)  
 After I go against it, the winning moment's purple line

There's a precious moment to me  
That abandoned video is like a picture  
I live a life that's like a movie

It's begun again, my last 2  
An image that's more valuable than yesterday is being born

Yo check it! move again  
And think again  
You must be lovin' the way  
Your dreams and passion within yourself  
Really, how do all of the  
Things that you do keep on workin' like that?  
Don't believe in failure, you are your only mentor  
Show you whats the trick

The world is black & white  
Each others' beliefs are like south and north  
Don't listen to the world  
You too can face each other with a different image  
I want to embark on a different road  
I want to draw a different world  
We gotta purple like that (like that)  
My time is still going on

Purple line, let me set up my world (my world)  
Where no one has walked this way  
Now, in my own different method  
No one can follow me  
The thing I want to see is my progression  
Even if my rhythm is divided until the end (you)
