With you, and me

Darling I want to see you, when I can't meet you, love
I always gaze at the sky
Calling you baby, baby my heart
Is always with you

When it's raining in the depths of my heart
Your voice brings the sun out to chase away the rain

Yes
Even when we're separated from the rainbow
That connects us, say I love you

Your voice is my rainbow
Overcoming the sky just to reach me

In this wide world darling, there's just you
You're listening to my heart
I feel you constantly
Baby how do you feel me?

When it's raining we look
At the rainbow with a smile (lucky day)
At that moment when time stops
Baby, I want to tell you (happiness to you)

Our wishes ride on a rainbow
Shine brighter, smile oh my girl (oh my girl)
My dream is your rainbow
(I wanna become your rainbow)
For you, I'm singing just for you (sing a song for you)

From good morning to good night (to good night)
Keep on believing (we carry on)
On painful nights in the moonlight
Your love envelopes me, uh

Yes
Even when we're separated from the rainbow
That connects us, yes I'm with you (yes I'm with you)
Your voice is my rainbow (you're my rainbow)
Overcoming the sky (across over the sky)
Just to reach me (reach to my heart)

Yes
Our wishes ride on a rainbow (you're my rainbow)
Shine brighter, smile oh my girl

I dream of your rainbow
I want to tell you more, say I love you
