�� step by step

�� ��� to heart

Definitely someday

There is more tomorrow

Now take it step by step

For some reason when I look at you

I feel happy everyday

I feel that we have the same wishes

And walk on the same path

The reason that the sighs

Turn to brilliance

Is not some special magic

But only that courage

No matter what kind of future there will be at the goal

We will find the important things

During our way to it

So try again

Definitely someday, believe it

There is more tomorrow, you'll reach it

Now take it step by step, it's all good, hey

Let's walk together to our dreams

There aren't only days

When everything works fine

Right next to you there is always a warm hand

I don't want you to forget that

It's the yell I've sent to you

But yes, to tell the truth

It is me who gets the energy from you

Always true to heart

Overflowing your dream, go for it

Lots of shine along way, new ones

You definitely can do it, hey

Let's head for a glory tomorrow

Your dream is about to cry

I'll be taking it easy

There is no more shows to hold  
Morning dreams  
There is white smoke  
Rising on the soft sky, say hello

No matter where you look  
It is always there slowly, but surely  
Smooth and carefully  
Aim it to your dreams  
Sunny days  
Break it down

Definitely someday, believe it  
There is more tomorrow, you'll reach it  
Now take it step by step, it's all good, hey  
Let's walk together to our dreams

Little by little, yeah  
With this smile, it's ok  
If you are with it with the smile  
You can be stronger to heart

Step by step, believe it  
There is more tomorrow, you'll reach it  
Now take it step by step, it's all good, hey  
Let's walk together to our dreams

Step by step  
There is more tomorrow, it's ok  
Now take it step by step  
You can be stronger to heart
