Keep your head down

U-Know time (Max)

You know what time it is?

This is return of the king

If you were just kidding, tell me "it was a lie"

Are you turning your back on me without even a goodbye?

Although we got along better when you weren't here

Why? Why? Why? Something's wrong

(Love again) Now that "love again" of yours

(Baby love again) Such a honest "love again"

(I will keep it low, I will keep it low) Who wrote that scenario?

(Keep your head down)

If I touch the beautiful you, at once cold thorns will stick in me

(Keep your head down)

The people we were that day have grown distant

(Why?) Was the side who loved in sin?

(Why?) Is it punishment for the side who suffers?

(Why?) I'm searching for answers

(Why?) I want to wake up from this nightmare

(Why?) If I could go back in time

(Why?) I'd smile once again

Yo! Why? Say, why is it like this? Pointless resistance to misunderstandings

Thinks like "I'll definitely protect you" too, they end up being one-way  
It's the same if the world says "what?"  
Let's look at the dream from those days

Now I'm just chillin', feel like I'm healing

I'll recapture what's been snatched away  
I never expected that you could leave that way  
An eye for an eye, a love for a love;  
The trap strengthens, strengthens, strengthens to the extent I feel it  
Hey! This, it isn't fate, it's too sad for that  
If there's someone to hold you in their arms now, go baby

(Keep your head down)

Until they reach the tip of this finger, the fragments of my tears are your  
doing as well

(Keep your head down)

Again and again, I stab a knife into the sadness

(Why?) Was the side who loved in sin?

(Why?) Is it punishment for the side who suffers?

(Why?) I'm searching for answers

(Why?) I want to wake up from this nightmare

(Why?) If I could go back in time

(Why?) I'd smile once again

Whether I'm asleep or awake, you go saying this and that

This time don't just tell me "how annoying" and escape, cut it out!

How about I retaliate and return your selfishness just as it is?

(Why? Why? Why?)

Although the sullied heart used to be a crystal

I don't need a love turned tortuous and twisted, it's become hollow

At first waiting for better days, I got frustrated, now I'm gonna put an end  
to it

This is my limit; you're so good at it too, do it!

(Why? Why? Why?)

More than now, more than now, someday I'll smile for sure ha ha

(Why?) Why?

(Why?) Love and hate, those are two sides of a coin

(Why?) Night is at the end of life, I'll be resurrected

(Why?) As I had lost lights

(Why?) Where were you?

(Why?) Look and notice me from afar yeah

(Keep your head down)

Till deep scars eventually disappear

I'll be seeing a dream

(Keep your head down)

Till deep scars turn into voices

I'll believe in tomorrow
