Down from Above

Tweedy

Down from above
I know
It's only love
Until it goes

When the last book is written
The last song is sung
When the last beginner has begun

Down from above
Comes the day
A light is made
To go away

Where can I go
Where can I flee
Now that you know
Will you take me?

Down from above
I know
It's only love
Until it goes

The world is filled with sadness
Your darkness falls on me
Where will you go?
Where will you be?

Down from above
Too wonderful for me
Down from above
Too wonderful for me
