

Low Key

Tweedy

I wanna let it be known
Ever since I was young
I've always been a refugee
Of a very high strung

I've always been low key
Just let the records show

No I won't jump for joy I don't
If I get excited, nobody knows
But I'm gonna love you the same

I'll always be your fool
And when it looks like I don't care
I'm just playing it cool

Oh no I won't jump for joy I don't
If I get excited, no one will know
I've always been low key
Oh you know me

Ooh ooh ooh (3x)

I've always been low key
Well you know me

No I won't jump for joy I don't
If I get excited, nobody knows
I'm gonna love you the same
I'll always be your fool

And when it looks like I don't care
I'm just playing it cool

No I won't jump for joy I don't
When I get excited, nobody knows
