

Got Whatcha Want

Tweet

Ooh, yeah
Hmm

Yes I got the sleep okay
But I'm still guarded (guarded)
It cannot and it won't change
That I'm disheartened (disheartened)
You say you miss our happy days
But all I remember (remember)
The promises that you made
But never delivered

I believed every word you said
I got what you want
I'm what you need
That's what you said
I got what you want
I'm what you need, yeah
I believed you
I got what you want
I'm what you need
But you never meant it
I got what you want
Yeah

How could I
I break my rule
To help with the lying (lying)
Instead am I someone who knew
That words weren't binding (binding)
You said it all
Told me to please just never doubt it (doubt it)
I feel for the small talk
You made me believe
But you weren't bout it

These are the very words you said
I got what you want
I'm what you need
That's what you said
I got what you want
I'm what you need, yeah
And I believed you
I got what you want
I'm what you need
But you never meant it
I got what you want, yeah
Ooh, I believed him
I got what you want
I'm what you need
Ooh, ooh, every word
I got what you want
I'm what you need, yeah
I believed you
I got what you want
I'm what you need
That's what you said

I got what you want

I fell for the small talk
And you made me believe
You were all that I need
I fell for the small talk
You made me believe (ooh)
Oh, I fell for the small talk
And you made me believe
You were all that I need
I fell for the small talk
You made me believe
Believe, believe, believe

Heee, yeah, ooh

I got what you want
I'm what you need
That's what you said
I got what you want
I'm what you need, yeah
And I believed you
I got what you want
I'm what you need (yeah)
But you never meant it
I got what you want, yeah
Ooh, ooh, ooh

Ooh, I believed you
I got what you want
I'm what you need (ooh)
I really believed you
I got what you want
I'm what you need, yeah
Every word
I got what you want
I'm what you need
But you never meant it
I got what you want
Yeah, yeah, yeah, yeah
