

Neva Shouda Left Ya

Tweet

Who am I foolin', I
I really miss you so bad
I talked to friends, we argued
They say that I, I lost the best thing I've ever had
But every time I felt it made sense
So I decided to go (to go, to go)
Now I regret it's too late to fix it
So I guess I'll never know
If it would've worked out or what

I've realized that I've made a mistake
And I neva shouda left ya
Neva shouda left ya
I've realized that I've made a mistake
And I neva shouda left ya
Neva shouda left ya

I never
Never
I never

I shouldn't be surprised
When you tell me you're speechless
I understand, I know the reasons why
With us there's nothing left, nothing left
I really, really know that I hurt you
Let the truth be told (be told, be told)
It's my fault you're probably happy now
I wish I gave us a chance to grow
I realized that...

I've realized that I've made a mistake
And I neva shouda left ya
Neva shouda left ya
I've realized that I've made a mistake
And I neva shouda left ya
Neva shouda left ya
I've realized that I've made a mistake
And I neva shouda left ya
Neva shouda left ya
I've realized that I've made a mistake
And I neva shouda left ya
Neva shouda left ya

I never
I never
Never
I never
I never
I never

I can't believe I let it all just slip away
I can't believe I let it all just slip away

That's it?
