Oops! a message suddenly flying in
What's going on?
Oops! says "I broke up with my boyfriend"
Are you ok now?

I'll cancel my plans
Throw on some makeup
I'll come running anywhere
Wait for me, my best friend

Feel like heaven, down to the hell
Stop! every day is like a roller coaster
We want to have confidence, we don't have confidence
We're worried, we're in a hurry
We got to move! we got to move!

Even when things are going badly
And your feelings are out of control
It's sure to be a lesson on how to be strong
Be ok, all right!
Even your tear-stained face sparkles
If you can put on a filter and smile
You can go back to being invincible, right?
We'll blow it off, and we have a fun

Be ok, everybody, be ok
Say "be ok", we gotta say "be ok"

Right, a boyfriend you can't depend on
Just swipe swipe swipe
Now fly out of the picture
Don't waste your time

More so than waiting it out
Changing it up is important
You have to look ahead
Or you'll miss your destiny lover

Feel like heaven, down to the hell
Stop! love is something like horror movie
So let's do this, arms over each other's shoulders
We're tied together, smiling at each other
We got to move! we got to move!

Even when things are standing still
And your heart freezes up
That's your chance to reset
Be ok, all right!
We'll hang out and do stuff, until morning
Be healed with that aroma
You can date anyone
Yeah yeah yeah

The white moon floats in the sky
(Morning moon, let the heartbreak go to rest)
Show me a new dream
(Don't disturb, be quiet just for now)

Be ok, everybody, be ok
Say "be ok", we gotta say "be ok"

Even when things are going badly
And your feelings are out of control
It's sure to be a lesson on how to be strong
Be ok, all right!
Even your tear-stained face sparkles
