Let's ce-ce-ce-celebrate

Tonight, we celebrate our love
After all this time, we're still together

Always illuminated, sunshine
With that light, I'm fine
Your love so bright
I made it shine (Ah-hah)
That's how we've been
Our long history of walking together

With you by my side
I came this far, baby

No matter what time of day, I can always hear your voice
Whispering next to me even when we're apart
That's how we've been getting through each moment
We got through it

I'm next to you, even now
You're next to me, so that's where you'll be
Forever
Let's ce-ce-ce-celebrate
Even though the future is changing
I want things to stay as they are
In your hands still
Let's ce-ce-ce-celebrate

Ta-ta, ta-ra, ta-ra-ta
Ta-ra-ta-ta, celebrate (I love it)
Ta-ta, ta-ra, ta-ra-ta
Ta-ra-ta-ta, celebrate (I love it)

It's real love, even in a world like this
We'll never change
(One, two, three, four, oh)
Accumulated memories
Make sure you don't forget them
Yes, if you look at it, we're like a family
We support each other more than anyone else
It's amazing how you help me fly
I won't be afraid, baby (Baby)

No matter what happens, we'll face each other (You and me)
Even on days when you smile, even on days when you cry (Even)
Even after hundreds of times, no matter what moment
Let's sing together (Hey)

I'm next to you, even now
You're next to me, so that's where you'll be
Forever
