

Magical

TWICE

I always hated the winter season
My heart was right on the brink of freezing
Then you came around and suddenly
It's like I'm never gonna be cold again
Yeah only you can get me in the spirit
Music in the air you make me hear it
Choirs singing I can't get enough
I'm making a wish maybe this is

This is something magical
The spell you have on me is supernatural
Now you got me falling like the winter snow
When you look at me it's something M-A-G-I-C
Something magical

Ooh something magical
Ooh something magical
Ooh something magical
M-A-G-I-C

Summer's great but when the world gets colder
That just means I get to hold you closer
Don't need fall or spring
'Cause you're the only thing on my list baby this is

This is something magical
The spell you have on me is supernatural
Now you got me falling like the winter snow
When you look at me it's something M-A-G-I-C
Something magical

You're the fire that keeps on burning
Through these bitter winter nights
I don't need the sun no more
As long as you'll be mine

This is something magical
The spell you have on me is supernatural
Now you got me falling like the winter snow
When you look at me it's something M-A-G-I-C
Something magical

Ooh something magical
Ooh something magical
Ooh something magical
M-A-G-I-C
Ooh something magical
Ooh something magical
Ooh something magical
M-A-G-I-C
