Baby, I'm crazy for you

I've love to ask you what you're doing right now

But I can't bring myself to, oh

I'm thinking about you so hard

That I can't even study

Whenever my phone rings, I'm like, "is it you?"

Then I see it's just a text from my mom and I'm so sad baby

My heart's swaying back and forth, sweet and sour, I'm so in love

Love is pink lemonade, my heart's fizzing

Popping magic, do you love me? baby

I love you so much, my heart gets hot

I I I I need you baby

Pink lemonade, I can't get my heart to stop pounding

It's all your fault

Do you feel the same? yeah yeah yeah

I I I I need you baby

Lemon sugar drop drop, oh yeah yeah

My love, your love, drop drop

Stop, you pat me on the head, are you just teasing me?

You say you're sorry with a smile on your face that gets my heart racing

No no, this is no good, I just can't wait any longer

So hurry up and tell me that you love me baby

My friend's got new info for me

Is it true that you don't like anybody?

I won't miss the biggest chance of the century

Love is pink lemonade, my heart's fizzing

Catch me with three words: "I like you" baby

You've got me feeling so impatient, my heart gets hot

I I I I need you baby

Pink lemonade, am I in the future

You've got your eyes on?

Do you feel the same? yeah yeah yeah

I I I I need you baby

Unrequited love bye bye

Be brave and be mine, baby baby

Be together good luck

More and more happy, baby baby

Lemon sugar drop drop, oh yeah yeah

My love, your love, drop drop

Lemon sugar drop drop, oh yeah yeah

My love, your love, drop drop

Love is pink lemonade, my heart's fizzing

Popping magic, do you love me? baby

I love you so much, my heart gets hot

I I I I need you baby

Pink lemonade, I can't get my heart to stop pounding
It's all your fault
Do you feel the same? yeah yeah yeah
I I I I need you baby

If we could just be together every day
The rain would turn into a rainbow too
Baby, I'm crazy for you
