Do you know how much I want you
There's no way to count my feelings with numbers
Someday if someone can find the end of numbers
But my heart will be
A little bigger (no one)

(Maybe)
Even with all the numbers in the world
(my finger)
My feelings can't be expressed
I can't count it but I wish that you knew
How my heart
Became bigger again from just now

Nowhere
You can't find
Someone like me
Nothing can express
All of my feelings

With you, with you

How much I think about you
I can't write down all of my feelings in letters either
Even when I add up all the words that I know
(know, know, know)
My heart will be lovelier than that

No words in the world can express
All of my feelings
I can't write it down but I wish you knew
I wish that you would understand
My heart which became bigger again from just now

Nowhere
You can't find
Someone like me
Nothing can express
All of my feelings

Nowhere
You can't find

Someone like me
Someone like me
Someone like me

Not enough with numbers
And not enough with words

Nothing in the world
Can express all of my feelings

Nowhere
I can't find
Someone like me
Nothing in the world can express
All of my heart

Nowhere
I can't find
Someone like me
Nothing in the world can express
All of my heart

Somehow, I want to show you
All of my heart
