

# This Is For

TWICE

This is for all my ladies who don't get hyped enough (Hey, ladies)  
If you've been done wrong, then this your song, so turn it up (Turn it up for me, uh, uh)

I wanna go where the baddest girls are from  
Might be another planet, maybe  
That's where Mother Nature made me  
Something about that water tastes like fun (Yeah, yeah)  
My girls make it rain confetti  
Sweet on your tongue

Beep, beep, beep  
I'm outside your door, so let's go don't let that  
Beep, beep, beep  
Have you feeling low when you're grown, you got the  
Key, key, keys (You got it)  
You already know, and it shows tonight  
It's you and me, how it should be

This is for all my ladies who don't get hyped enough  
If you've been done wrong, then this your song, so turn it up  
One time for all my ladies  
You looking good as what, so tell 'em, "Bye-bye"  
'Cause it's your time to turn it up

This for the girls with that light inside  
They spin around you like satellite  
Yeah, you the baddest, all day and night  
I'll give you flowers till the end of time  
Ooh, this your moment, go get it  
Ooh, forget that boy, don't sweat it  
I'll always be your ride or die, so

Beep, beep, beep  
I'm outside your door, so let's go, don't let that  
Beep, beep, beep  
Have you feeling low, when you're grown, you got the  
Key, key, keys  
You already know, and it shows tonight  
It's you and me, how it should be

All my ladies now  
Oh, oh, oh, oh, let's get down  
Come on, dip your hip into it  
All my ladies now
