I'm like TT, just like TT
Tell me that you'd be my baby

I get so flustered
Just looking at you
I can't do anything, ba-ba-ba-baby
I'm already imagining
Saying your name informally
Though we don't know each other yet

Beautiful no matter what I wear
Having a fashion show with you in the mirror
This time I'll be the first to talk talk
Even though I swear it, I only ever swear it

Nanana nananana
I tried humming a sweet love song
Why is it? That's all it takes
To make me want to cry (I love you so much)

I tried to act all grown up, but just couldn't
My heart's display is always the crying emoji
The more I try to hold it back
The more it overflows, my love overflows baby

I'm like TT, just like TT
Pretending you don't notice, stop it
I'm like TT, just like TT
Tell me that you'd be my baby

You say that even though I'm cute
My looks don't set me apart
That's doesn't cheer my up at all, ba-ba-ba-baby
I'm down and depressed, but why?
Why am I so hungry?
Sugar rush, addictive

No no no no, I'm yelling at stuffed animals
I wanna lock myself in my room and
Let this meaningless time fly by today
My skin's also looking no good good
This negative monologue boo boo
Mama's worrying all the time

Nanana nananana
I used to love this sweet love song
I'm feeling so irritated, getting so upset
I feel like I could explode (I love you so much)

I tried to act all grown up, but just couldn't
My feelings go up & down with your reactions
A state of emergency like never before
I can't stop it, stop this love baby

I'm like TT, just like TT
You're toying with my heart, stop it
I'm like TT, just like TT
Tell me that you'd be my baby

While you still don't know me
I don't want you to fall for someone else
So this time I'll be the one to talk talk
Even though I swear it, I only ever swear it

I tried to act all grown up, but just couldn't
My heart's display is always the crying emoji
The more I try to hold it back
The more it overflows, my love overflows baby

I'm like TT, just like TT
Pretending you don't notice, stop it
I'm like TT, just like TT
