Welcome to my world
Welcome to my world
Hey hey break it down now
Hey hey here we go now
They say everyone is the same except me
Other girls say oops oops I'm sorry
Guys confess their feelings for me dozens of times a day
I just wanna love you (I just wanna love you)

They say I glow wherever I go
I get sick of how all the guys would ask me
Would you be my Lady lady lady Baby baby baby
I just wanna love you (I just wanna love you)

I want to ignore them all
Everyone around me is loud and noisy
I act like I'm indifferent
But actually I have butterflies in my stomach too

They all look back at me woo hoo
I think I'm so noticeable woo hoo If you see me once
Your heart will pound, and if you try to forget about me
You will still remember me
Come on come on come on
Feel good It's not all bad
It feels like getting loved
You will want to see me even when you're seeing me
And you will keep thinking of me It feels good

Welcome to my world
Welcome to my world

Everything from head to toe is perfect
Score of ten out of ten isn't enough
All the guys confess their feelings for me when they see me
I just wanna love you

I can hear the sound of them looking for me
This long line of guys goes forever
Hurry hurry hurry Maybe maybe maybe
If you wanna get me (If you wanna get me)

I want to ignore them all
Everyone around me is loud and noisy
I act like I'm indifferent
But actually I have butterflies in my stomach too

They all look back at me woo hoo
I think I'm so noticeable woo hoo If you see me once
Your heart will pound, and if you try to forget about me
You will still remember me
Come on come on come on
Feel good It's not all bad
It feels like getting loved
You will want to see me even when you're seeing me
And you will keep thinking of me It feels good

I'm your SWEET LOVE SWEET LOVE
Your SWEET DREAM SWEET DREAM
The more you see me, the more you'll like me
The more you think of me, the more you'll fall for me

SWEET LOVE SWEET LOVE
SWEET DREAM SWEET DREAM

Hey hey break it down now
Hey hey here we go now

They all look back at me woo hoo
I think I'm so noticeable woo hoo If you see me once
Your heart will pound, and if you try to forget about me
You will still remember me
Come on come on come on
Feel good It's not all bad
