

I Can Do All Things

Twila Paris

The day can be so long
Temptation growing strong
To lay the struggle down
And tremble in defeat

Then rising up in me
The courage to believe
You lift me tenderly
To face the enemy

For You have overcome the world
And You have come to live in me
And in Your name
And in Your power
I can do all things

The danger here is real
From one who come to steal

The freedom and the life
You have given me
So I will cling to You

Your promise will be true
You are my solid rock
You are my victory

Through Christ who strengthens me
I can do all things
Through Christ who strengthens me
I can do all things
