

## You Lead Me

Twila Paris

You said: Follow me and I will make you Mine  
I will make your life come true  
You said: Trust in Me and I will hold your hand  
I do, I do

You lead me by still waters  
You lead me through the storm  
You feed me in green pastures  
You keep me safe from harm

You said: come away and you will know My heart  
I will build a fire in you  
I said: I am here and I will dream this dream  
With You, with You

You lead me by still waters  
You lead me through the storm  
You feed me in green pastures  
You keep me safe from harm  
You lead me [repeat]

And daybreak comes with mercy  
And twilight carries fears  
And troubles come and troubles go  
But like the snow Your joy falls around so easy

You lead me by still waters  
You lead me through the storm  
You feed me in green pastures  
You keep me safe from harm  
You lead me [repeat]
