

Long Live the King

Twilight Force

Joyful chants of delight, magic in the air
Fated crowning of a king, praised through the lands
After times of despair, hardships, turmoil, agony

Mighty King of the Nordic Twilight
Will unite us all

Banners of glory, waving in the summer wind
Guides the way to coronation

Long live the king, rise up and sing
Stand by the crown
Long live the king, glory he'll bring
Shine forevermore

Bard's songs rang through the wind, heartens mortal souls
Once more, a king upon the throne,
Giving people hope
Horns of triumph in the air
Mighty sounds of victory
Guardian knights of the royal kingdom,
Raising their steel

Banners of twilight, waving on the citadel
Forms a sign of restoration

Long live the king, rise up and sing
Stand by the crown
Long live the king, glory he'll bring
Shine forevermore
