

Sunlight Knight

Twilight Force

Riding through the green, riding alone
I'm riding far, far from home
I came across a village hidden in the woods
Where all was darkened by the skies

"A daemon has stolen our sunlight
Please, help us restore it
Bring back the light to save us all"

I hear them calling out my name
Ride for sunlight
I made my way out of the dark
I see a distant light arise
Bring the daylight
The sun will shine before your eyes

Sunlight illuminates a portal in the glade
I rode inside and raised my blade
I saw the daemon before me
"Return the light you have stolen"

"Begone mortal, the light is mine, forever!"
"Then by my sword you shall fall!"

I hear them calling out my name
Ride for sunlight
I made my way out of the dark
I see a distant light arise
Bring the daylight
The sun will shine before your eyes

The sun is finally rising
The shining light will guide us
The Sunlight Knight has saved us all
Feel the glory, of the sunlight
Celebrate the victory of the mighty Sunlight Knight
