

Fall

Twin Atlantic

You make me sick sometimes
You're so pathetic
You said that so clearly last night
Don't lie, you don't regret it

A million questions with a million answers
I'm dying trying to get better
Let me know if you can do anything about it

I swear I'm witnessing a miracle
I swear I'm witness to a miracle

If I fall would you climb back up next to me?
If I lose it all would your love keep on catching me?

Nine billion friends out there
So entertaining
Somehow you're so bored tonight
The weather's just depressing
Another day, another war
Another fight, another vote
And I can never understand
So I'm needing inspiration from a lover who can

I swear I'm witnessing a miracle
I swear I'm witness to a miracle

If I fall would you climb back up next to me?
If I lose it all would your love keep on catching me?

Oh-oh, I wanna get better now
I wanna get better now
Oh-oh, I wanna get better now
Wanna get better, wanna get better

If I fall would you climb back up next to me?
If I lose it all would your love keep on catching me?

If I fall would you climb back up next to me?
If I lose it all would your love keep on catching me?
