

I Am Alive

Twin Atlantic

All these are breaking up
I'm falling into hell just to mess you up
Indecision
Cold let me heat you up
My mind is making oil let me fill your cup

And they're singing
Forward, don't back down
It's easy, it's easy
Forward, don't back down
Control it
It's easy
It's easy

Time starts ticking down
Nothing in the world's going to stop me now

I am alive
I am alive
I am alive
I am alive

Heart rate is speeding up
Better check my pulse case I've had enough
In the middle
Drop tail and spreading guts
Burn no religions cause you only live once

And they're singing
Forward, don't back down
It's easy, it's easy
Forward, don't back down
Control it
It's easy

Time starts ticking down
Nothing in the world's going to stop me now
Time starts ticking down
Nothing in the world's going to stop me now

I am alive
I am alive
I am alive
I am alive
I am alive

I'm alive
I'm alive
I'm alive
I'm alive
I'm alive
I'm alive
I'm alive
I'm alive
I'm alive

Time starts ticking down

Nothing in the world's going to stop me now
Time starts ticking down
Nothing in the world's going to stop me now

I am alive
I am alive
I am alive
I am alive
I am alive
I am alive
