

# I Feel It Too

Twin Atlantic

Caught the glow from your cigarette  
I'm here alone and I'm not the best  
Take a walk up the hill to find my heart

Sleep walking, I must be ill  
Bite my lip, help me feel the thrill  
That look shot a shock into my heart

Give me a reason  
Love is the reason  
Worship the feeling  
Or restart

I feel it too  
I feel it too  
I feel it too  
I feel it too

Just use my body  
Know somebody out there's loving you  
Just use my body  
Know somebody out there's loving you

Caught the glow from your cigarette  
I'm here alone and I'm not the best  
Take a walk up the hill to find my heart

Give me a reason  
Love is the reason  
Worship the feeling  
Or restart

I feel it too  
I feel it too  
I feel it too  
I feel it too  
I feel it too

Give me a reason  
Love is the reason  
Worship the feeling  
Or restart  
Just use my body  
Know somebody out there's loving you  
Don't be a stranger  
I can't wait to hear you say you feel it too

I feel it too  
I feel it too  
I feel it too  
I feel it too

Just use my body  
Know somebody out there's loving you

I feel it too  
I feel it too

I feel it too  
I feel it too  
I feel it too

Don't be a stranger  
I can't wait to hear you say you feel it too

I feel it too  
I feel it too (I feel it too)  
I feel it too (I feel it too)  
I feel it too (I feel it too)  
I feel it too
