

It'S Getting Dark

Twin Atlantic

I take your hand
I would take your hand
I walk you home
I would walk you home

'Cause honey's gonna reel in an injured shark
Baby, it's a bloodbath
It's getting dark
It's getting dark
It's getting dark
It's getting dark
It's getting dark

You manipulator
Tears make you so proud
On the edge of failure
A man and his crown

'Cause honey's gonna reel in an injured shark
Baby, it's a bloodbath
It's getting dark
It's getting dark
It's getting dark
It's getting dark
It's getting dark

I don't believe in love
The love that leaves you crushed
Until we both black out
I don't believe in love
The love that leaves you crushed
Screaming hate out loud
Until we both black out
Both black out
Black out
