

Novocaine

Twin Atlantic

You were my secret
Another poison dart
Right to my temple
And blew the candle out
I lie here broken
You opened up the door
And showed me freedom
Another mutilated romance

Like novocaine
You flood my brain
And foolish electric heart
If I'm nothing
You're all
My foolish electric heart

Now tell me something
Where'd you get that scar?
'Cause on the surface
It's like a work of art
In New York City
You tried to play guitar
Its strings were broken
You tuned it to my heart

Like novocaine

You flood my brain
And foolish electric heart
If I'm nothing
You're all
My foolish electric heart

Like novocaine
Like novocaine
Like novocaine
If I'm nothing
You're all
My foolish electric heart
My foolish electric heart
If I'm nothing
You're all
My foolish electric heart

You were my secret
Another poison dart
Right to my temple
And blew the candle out
Yeah, I lie here broken
You opened up the door
And showed me freedom
From my foolish electric heart
