

Just a stone's throw from the old place
Where the brave face she carved from bone
That's where she left me, left me right here
Without protest, what's done is done
What's done is done.

Been a long time, but it feels right
And when it feels right, it's good to find
And I found it, found it right back
Me and the old place, what's done is done
What's done is done.

Just a stone's throw from the old place
Ain't no face, ain't no face
I'm staying, staying right here
Say no face, being alone

A bit of bad luck, about a rock gut
Fight is back foot, what's gone is gone
Then I found out, found out right here
Won't you come back? What's done is done.
What's done is done. [x5]
