

# Get Closer

Twin Shadow

I can't imagine now that  
I could get your heart more open  
I filled your box until I knew  
I knew your heart was floatin'  
Like, Jesus Christ I tried  
Like Holy Ghost your roller coaster's  
Got me sick  
I dreamed a lot last night  
The same old dreams  
My dreams are steady  
That with a gun  
You asked me for my love  
My dreams are heavy  
Then Jesus Christ  
I tried to jump across the boundless ocean  
Don't love me anymore  
'Til you get closer  
I'm walking out the door  
'Til you get older  
I love a really good argument  
Let's talk a little bit slower  
Don't love me anymore  
Get closer  
I've got so much to learn 'bout you  
I've got to study  
Your arms are sore  
My nose is raw  
Our palms are bloody  
Like Jesus Christ, I know you're crucified each day for living  
And that just makes me sick  
Don't love me anymore  
'Til you get closer  
I'm walking out the door  
'Til you get older  
I love a really good argument  
Let's talk a little bit slower  
Don't love me anymore  
Get closer  
Don't love me anymore  
'Til you get closer  
I'm walking out the door  
'Til you get older  
I love a really good argument  
Let's talk a little bit slower  
Don't love me anymore  
Get closer  
I can't imagine now that  
I could get your heart more open  
I filled your box until I knew  
I knew your heart was floatin'  
Like, Jesus Christ, I tried  
Like Holy Ghost your roller coaster's  
Got me sick  
Don't love me anymore  
'Til you get closer  
I'm walking out the door  
'Til you get older

I love a really good argument  
Let's talk a little bit slower  
Don't love me anymore  
Get closer  
La la la la la-la-la la la
