

Golden Light

Twin Shadow

I met you first
I heard your voice on the telephone
And then again
A city street where you walked alone

And when you came out of the dark
I was waiting there
You said "i can take it now if you can take me anywhere"
Don't be scared

Some people say there's a golden light
You're the golden light
And if I chase after you doesn't mean that it's true

Some people say there's a golden light
If I'm the golden light
If you chase after me
Doesn't mean you can see

I would try to recall but I can't hear it at all
The things we said that day
And my memory's dark
Am I to follow it all
The stunning things you say like

"it's been so long"
"so long
Since some brave boy fell in love"

Some people say there's a golden light
You're the golden light
And if I chase after you doesn't mean that it's true

Some people say there's a golden light
If I'm the golden light
If you chase after me
Doesn't mean you can see

I'll follow
I'll follow you...

And if you chase after me
Doesn't mean you can see

Some people say there's a golden light
You're the golden light
And if I chase after you
Doesn't mean that it's true

Golden light
You're the golden light

Some people say you're the golden light
You're the golden light...

And if I chase after you
Doesn't mean that it's true
