

## Half Asleep

Twin Shadow

I put my gun down  
You put yours down too  
So many problems  
We'll never solve them  
Here at the bottom  
Ain't it clear  
I'm in love with you  
You found a way out  
Well, I woulda ran with you

I was your lover  
Born undercover  
We got so smothered  
Being so close  
Seemed to destroy us too

Emily  
I'm looking at you like a movie scene  
But ain't it like me to be half asleep  
You're still in the dream  
I'm having now  
I know you have your doubts  
Oh, Emily  
It seems  
That we were just kids without gravity  
I mean  
That I let it all get the best of me  
Oh, Emily  
What you doing now?  
Everybody's out

If I put my guard down  
Will you put yours down too?  
We fall in the trenches  
Build up the fences  
You tell me when  
You lose your defenses  
Ain't it clear?  
I'm still in love with you

Emily  
I'm looking at you like a movie scene  
But ain't it like me to be half asleep  
You're still in the dream  
I'm having now  
I know you have your doubts  
Oh, Emily  
It seems  
That we were just kids without gravity  
I mean  
That I let it all get the best of me  
Oh, Emily  
What you doing now?  
Everybody's out

When I see you  
Now I hear you

Outside nearly  
Closer to me

Emily  
I'm looking at you like a movie scene  
But ain't it like me to be half asleep  
You're still in the dream  
I'm having now
